## Overview

## Specifications

**The best-selling BlackBerry Curve 8310 has been upgraded with an impressive new display, faster processor and more features for an even better mobile experience.**

The best-selling BlackBerry Curve 8310 has been upgraded with an impressive new display, faster processor and more features for an even better mobile experience.

The new, pin-sharp screen makes documents, web pages and video shine. And they all spring into life quickly thanks to the new processor.

You can now edit Microsoft Word, Excel and PowerPoint files, so you can make changes to documents before emailing them on.\*

And of course, because this is a BlackBerry, you gain instant secure email. Plus your inbox, contacts, calendar and tasks are kept in sync with your office PC.

This latest model also includes a higher resolution camera and an even longer lasting battery.

\* Requires BlackBerry Enterprise Solution 4.5

## Who will use it?

Busy professionals who need to be able to stay in touch at all times, whether it's via phone, text, email or instant messaging, and want a mobile that does it all in one stylish package.

## Why buy?

BlackBerry devices have always been the top option for Mobile Email. And with BlackBerry Curve, you also get a smart way to access the web, GPS maps, video and music – making it the only device you need to carry.

Research In Motion, the RIM logo, BlackBerry and the BlackBerry logo are registered with the U.S. Patent and Trademark Office and may be pending or registered in other countries – these and other marks of Research In Motion Limited are used under license.
