

BlackBerry® Curve™ 8520 smartphone

Enjoy full connectivity on the move with this great value smartphone

- Trackpad navigation – similar to laptop trackpads, allows you to scroll through menus, icons and info by gliding your finger over it
- Link up to your office Outlook® and up to 10 personal email accounts
- Sync your email and calendar with your inbox*
- View and edit Word, Excel® and PowerPoint® documents
- Full QWERTY keyboard
- Built-in calendar, memo pad and task list to help you keep up to date with your work appointments
- Access BlackBerry applications to increase your productivity on the move
- Unlimited internet access through WiFi
- Bluetooth® wireless connectivity
- Automatic updates from your favourite websites using widgets

*Requires Microsoft Exchange Server 2003 with Service Pack 2

Overview

Specifications

Stay connected no matter where you are with this fantastic value smartphone.

With work and personal emails pushed directly to your smartphone, you'll never miss an important email again. You can have up to 10 email accounts, each with their own inboxes, meaning you can easily keep your emails organised.

Keep on top of your working day with the built-in calendar, memo pad and task list, and with the full QWERTY keyboard, you'll be able to modify or add tasks to your list with ease.

Download BlackBerry applications to further increase your productivity on the move by mobilising your accounting, logistics or CRM systems as required. And there are more BlackBerry applications added all the time, so you can truly make the phone your own and be as efficient as possible on the move.

The smartphone comes with a 2GB MicroSD card included, but you can add any size of card up to 16GB, giving you all the room you need to store all your documents, pictures, videos and more.

Use the built-in Bluetooth® for handsfree connectivity with your smartphone, or share files with other Bluetooth® devices instantly. And control multimedia with dedicated media keys found at the top of the phone - you can even mute phone calls in the push of a button.

Who will use it?

Business people looking for the best value smartphone, who need email and Microsoft Office® applications on the move, as well as other business applications like finance or CRM software.

Why buy?

Trackpad navigation recreates a laptop experience, plus it links with Microsoft Exchange. You can view and edit Microsoft Office® documents, and increase your productivity with business apps. There's also a 2GB MicroSD card included, which can be expanded up to 16GB.
