- 3.2 mega pixel camera with autofocus, flash and image stabiliser
- Relax after work with music and video, from your iTunes®

*Requires Microsoft Exchange Server 2003 with Service Pack 2

Overview

Specifications

Now you can enjoy all the legendary benefits of BlackBerry on a slick, touch screen device.

And it's no ordinary touch screen. The BlackBerry Storm2 features the latest SurePress™ technology – when you type, the screen clicks, giving you the reassuring sensation that you're pressing keys.

This new feature makes it even easier to write email and instant messages, so you can keep in constant contact with colleagues and stay on top of work wherever you go.

Email attachments and web pages look fantastic on the Storm2's big screen, as does BlackBerry Maps, which uses built-in GPS to show you the way.

There are hundreds of other productivity-enhancing apps available too. From simple weather forecasts to advanced accounting, just pick and choose what you need online.

The BlackBerry Storm2 is simple to set up and use with all your current email accounts, web bookmarks and media files. It can sync with Outlook on your PC, plus you can bring over all your favourite videos and music from iTunes®.

Who will use it?

Professional people who want to take their online life to the next level using the very latest BlackBerry technology. Also, those who like the idea of a touch screen but don't want to give up the tactile feedback buttons provide.

Why buy?

With its innovative new touch screen, this phone is perfect for email, instant messaging and web browsing. It has GPS with BlackBerry Maps, plus you can add any other applications you want from an extensive online collection.
